

Pipeline Gold Professional Beer Line Cleaning Powder

Powder version of our unrivalled premium Pipeline Gold Professional Beer Line Cleaner. Developed for use on neglected or troublesome dispense systems, this Professional strength chlorine-free beverage-dispense system cleaner uses a sophisticated blend of innovative surfactants and sequestrants which combine to penetrate, emulsify and lift soil and biofilm to leave lines astonishingly clean. It contains no caustic soda.

PRODUCT SPECIFICATION	
Name:	Pipeline Gold Professional Beer Line Cleaning Powder
Product Code:	D-PGPBLCPO.1K
Product Size	100 g
Packing Quantity	100
Packing Size (L x H x D)	(32.5 x 22 x 25) cm
Shipping Weight	11.2 kg
Shipping Volume	0.018 m ³

This product is also available in a 50 g sachet

How to use

Dilution Rate: 100 g per 10 litres (or up to 200 g per 10 litres for exceptionally stubborn lines).

Cleaning: Switch off coolers. Prepare the cleaning solution in a plastic container or cleaning vessel using cold or warm water (<40°C). **IMPORTANT** Pre-fill the plastic container with a minimum of one litre of water per 100 g sachet. Gently add all of the sachets to be used whilst keeping the water flowing for agitation. Pump solution through the dispense head into a white plastic receptacle such as a Pipeline Bucket until the emergent solution is a golden colour. After ten minutes draw off a full line of solution until the golden colour is once again evident and soak for a further ten minutes. Repeat the process.

Rinsing: Pump fresh cold water through to dispel all the cleaning fluid followed by a further five litres of water. Keep checking for clarity and the absence of 'floaters'. Verify the purity of this water using Pipeline Rinse Water Test Papers: Dip paper under the running water. If there is a trace of Pipeline in the water, the test paper will turn purple. If the paper stays pink no cleaning solution remains and rinsing is complete. Switch coolers back on. Reconnect dispense product.

Pipeline Gold Professional Beer Line Cleaning Powder - UN3262 CORROSIVE SOLID, BASIC, INORGANIC, N.O.S.

DANGER – Harmful if swallowed. Causes severe skin burns and eye damage.

PRECAUTIONS – Never add water to dry product. This may generate heat. Follow the instructions and dilute by pouring product into water. Keep out of reach of children. Do NOT breathe dust. Wear protective gloves/protective clothing/eye protection/face protection.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do – continue rinsing. Get immediate medical advice/attention.

IF SWALLOWED: Rinse mouth. Do NOT induce vomiting. Get immediate medical advice/attention.

IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower. If skin irritation occurs: Get medical advice/attention. If medical advice is needed, have product container or label at hand.

If skin irritation occurs: Get medical advice/attention.

If medical advice is needed, have product container or label at hand.

Contains: Potassium Hydroxide
